

## 1999 Automate F38H custom 5th wheel

The trailer is just over 38 feet long and weighed 12,160 pounds when it came off the production line. The GVWR is 19,200 pounds, giving you about 7,000 pounds of cargo capacity. With all the inside storage and over-sized basement area, you can really load it up. Don't worry if you do; the triple axle air suspension adjusts to exactly match the load.

The exterior was also designed with decals only on the front and back – no side decals to oxidize, fade, and crack.

The top of the roof vent covers is 12 feet 4 inches from the ground and it is 96 inches wide. The unit has a LARGE single slide for many reasons. The storage and counter space lost to a slide decided us against a second main floor slide. To keep the same amount of counter space that is in this unit, an additional 18 inches would be needed and a lot of storage space would still have been lost. The bedroom was lengthened to accommodate an 86 inch mattress with 6-inch bolster, allowing for a huge basement storage area. In addition to the extra length, the roof was raised as far as possible instead of using a slide.

The resulting rig is very usable with the slide in, we can't get to one cabinet; everything else (including ALL kitchen appliances) is accessible with no problem.

The rig has everything you need for comfortable living in an RV park or out in the boonies. In a park you have the option to connect either 30 or 50 amp power depending on your needs. With 100 gallons of fresh water and three 45 gallon holding tanks, you can easily stay out for a couple weeks without skimping.

If you are tall this rig is ready for you -- the bathroom is 80" tall and the bedroom is 74". The bathroom has tall mirrors, a large skylight over the shower and even the cabinet over the toilet is moved up 3" for a bit more headroom. The extended bedroom has an 86" bed platform and a bolster so you can use a standard queen mattress and sheets but have an extra 6" of headroom.

Solid oak doors on all cupboards through rig except the shower room cabinet

Dual pane dark tint windows

Upgraded insulation package (blue foam)

Day/night shades with light blocking night shades

2 Fantastic Fans plus two vents in the bath area

Fluorescent ceiling lighting, incandescent counter lights
